

Description-

My website is going to be a compendium of all the cards in the video game Slay the Spire. Slay the Spire is a game where you play as one of four characters and use their unique cards to kill enemies as they climb the Spire. The website will have one page for each character. Each page will explain the character's strengths, weaknesses, starting health, starting relic, and possible strategies. The main focus of each page, however, will be displaying that character's available cards. Every card will include its image, name, type, rarity, energy cost, and effect.

Page Names-

1. Slay the Spire Card Compendium (home page)
2. The Ironclad
3. The Silent
4. The Defect
5. The Watcher
